CAITLYN DALY

SKILLS

Java	MySql
Python	JQuery
PHP	Photoshop / Illustrator
HTML/CSS/JS	

EXPERIENCE

Co-founder | Gaia LLC | June 2017 - Now

I hold a leadership position in Gaia that allows me to help spear head designing and implementing an algorithm to detect when an autism patient is having an attack. I also assist the UX/UI team with designing and implementing a fully realized and complete application on both Android and iOS.

Web Developer| Endpoint Engineering @ RIT | Aug 2017-Now

I help implement new features on RIT's metrics system that handles and oversees the MAC fleet on campus.

Senior Technician | Communication Support @ RIT | May 2016 – Aug 2017

I held a leadership position helping analyze technological processes to identify areas of re-work, loss of productivity, and wastes of time.

Jr. Systems Engineer | Synaptics | Feb 2014 – Aug 2014

I worked with a team to update and create helpful automation practices for testing silicon chips at a systems level. Create and document areas of concern with silicon chips tested in a variety of different environments.

OBJECTIVE

Skilled and committed Web and Mobile Computing student looking for a co-op in full stack or front end development in Spring 2018 and Summer 2018. Has experience in information technology, solutions, hardware, electrical engineering. tech-savvy with equal proficiency in a range of languages, specifically related to Java, HTML, JavaScript, and JQuery.
